Key Description : SCHOOL FIGHTS ON BUSINESS PREMISES

Problem pesciption:

The month of September 1994 saw the beginning of school and the result was disturbances in Milbourne Mall. Groups of youths from different schools have been involved in fights (knives involved). Some of the fights were taking place inside business premises. The students were from Edith Rogers Jr. High and SL Hilda Jr. High

Problem solving strategies and results :

Cst. Fiss spoke with the principals from the two schools and made them aware of the problem.

Staff at St. Hilda were very cooperative and supportive, agreeing to become actively involved with police in the way of discipline and if necessary, suspension.

The principal of Edith Rogers agreed to assist also, however in a different way. He chose to patrol the mall at lunch hour with either Cst. Fiss or security, in return he requested that Cst. Fiss address his Human Resources classes.

One of the businesses, the Macs Store, hired a person that only allows five people in the store at a time.
